

I listen to the local radio station, K-LOVE, which serves me as a resident of the local community by keeping me up to date on issues not always included in the regular news stations. Also provides my family a radio station to listen to where young children do not have to be exposed to profanity.

2. The effect on the local community if K-LOVE were to be displaced by an LPFM broadcaster providing other programming would be widely felt. Our community relies on Klove to provide us with commercial free, quality programming.

3. I believe that the service provided by K-LOVE is in the public interest because it gives listeners something to listen to that does not add to their anger and frustration, especially in traffic.
